The New-York Central
AND
Hudson River Railroad

MAIN LINE.

Time Table No. 64

FOR EMPLOYEES ONLY.

Taking effect

AT 12.01 A. M.

Sunday, January 1, 1899.

STUDY the REGULATIONS and NOTE ALL CHANGES.

CONSULT the BULLETIN BOARDS BEFORE LEAVING TERMINAL STATIONS.

The Passenger Trains of this Company will STOP ONLY to land and receive passengers at such stations as are designated herein.

EDGAR VAN ETTEN,
General Superintendent.

D. B. McCOY,
Supt. Hudson Division.

F. A. HARRINGTON,
Supt. Mohawk Division.

J. P. BRADFIELD,
Supt. Western Division.

THE DE VINNE PRESS.

Explanation of Letters and Signs:

S—Regular stop.
A—Arriving time.
L—Leaving time.
§—Stop to land New-York passengers only.
g—Stop on Sundays only.
×—Stop on Saturdays only.
*—Meet or pass trains at reduced speed.
†—Trains will pass at Hallenbeck Switch.

SPECIAL INSTRUCTIONS.

HUDSON DIVISION.

Clocks designated as Standard Time Pieces are located as follows:

Grand Central Station; Despatcher's office 65th St.; Engine House 72d St.; Passenger Stations at Croton, Poughkeepsie, Rensselaer, Albany and Troy; and Yard Master's office at West Albany. (See Rule 17.)

Between Grand Central Station and Spuyten Duyvil trains will use the left-hand track. Between 30th St., N.Y., and Spuyten Duyvil, and between Spuyten Duyvil, Albany and Troy, trains will use the right-hand track.

§ Stop to land New-York Passengers only.

Trains Nos. 50 and 51 have right of track over all other trains.

☞ Trains Nos. 61, 43, 31, 35, and 32 do not carry passengers.

Passengers will not be carried on freight trains.

Trains Nos. 103, 145, 148 and 120 will stop at University Heights.

Train No. 45 will not run from Rensselaer to Troy on Sundays.

Through Express Trains scheduled to stop at 125th Street and 138th Street stop only to land passengers from the West and North, and to pick up passengers for the North and West.

Enginemen must approach the junctions of the Spuyten Duyvil and Port Morris Branch at Spuyten Duyvil and Mott Haven Junction, and the Boston & Albany R. R. crossing at Hudson, at reduced speed and with train under full control. They must run cautiously around the curves between Kings Bridge and Spuyten Duyvil, and run with care through all villages.

Conductors and enginemen are required to have a copy of the local time-table of the Troy and Greenbush Branch and Harlem Line while on duty on those divisions, and to be governed by their instructions.

Trains while crossing the bridge at Albany are under the exclusive control of the Bridge Company; and conductors, enginemen, and train hands must be governed strictly by the rules and regulations of said company.

Rule Governing Detached Trains (on Hudson Division).

Whenever a freight train becomes separated on any part of the road, great care is required to prevent detached parts from colliding; the forward part must be kept in motion until rear part is known to be stopped. Should it part without the immediate knowledge of engineer, he must not back up for it (unless it is in sight), but must proceed to the first siding or middle track, leave the forward part of train and immediately return on the opposite track to find the rear portion. Should a following train of any class find a detached portion of a freight train between stations, they must couple on and push it cautiously to the first siding or middle track, at a speed not exceeding six (6) miles per hour, but must first send a man with danger signals at least five hundred (500) yards in advance, which distance must be maintained until the siding is reached, and also place a man on top of the first car with signals in view of the engineer, that may be plainly seen and promptly acted upon in case of necessity. Should the train pushing the rear portion of a detached train find that the forward part is not on the siding or middle track at point where the rear portion is placed, they must continue to run cautiously until the forward portion is found and passed, in order to avoid any possibility of collision with other detached parts.

Engineers having occasion to go back after detached part of train and finding it being pushed, will cross over to the proper track and follow cautiously behind the shoving train. (See Rules 100 and 104.)

Trains have no right to back over the road except in emergencies, and must then be protected with signals sufficiently in advance to stop following train.

Middle Tracks or Sidings.

All trains using middle sidings in either direction must not exceed a speed of six (6) miles per hour, and will only proceed as they see the way to be clear.

All trains or engines going on or off middle tracks, or sidings, must not exceed a speed of four (4) miles per hour.

Middle Track Between Sing Sing and Spuyten Duyvil.

Middle or third track between Sing Sing and Spuyten Duyvil will be used by all freight, work, and construction trains, as follows:

The section between tower 27 and crossover at tower 24 will be used by south bound trains exclusively. Between tower 24 and crossover at tower 23, middle track will be used as a siding. Between tower 23 and crossover at tower 20, middle track will be used by north bound trains exclusively. Between crossover at tower 20 and tower 19, middle track will be used as a siding. Between tower 19 and crossover at tower 15, middle track will be used by south bound trains exclusively. Between tower 15 and crossover at tower 13, middle track will be used as a siding. Between tower 13 and crossover at tower 8, middle track will be used by north bound trains exclusively.

Stock trains and scheduled special fast freights will be allowed to run on main track between Spuyten Duyvil and Sing Sing, when possible for them to do so without delaying or getting on the time of first-class trains.

Local trains will also have the right to use this middle track as above, subject to the same rules governing freight trains, when necessary to let express or superior trains pass them. Local trains availing themselves of this right must reduce their speed to that of freight trains and run with care.

On middle track between towers 24 and 23, and between towers 20 and 19, and between towers 15 and 13, the rate of speed must not under any circumstances exceed six (6) miles per hour, and trains will only proceed as they see the way to be clear. On other portions of middle track between tower 27 and tower 8, trains may run at the rate of fifteen (15) miles per hour, but all trains or engines going on or off middle tracks, or approaching switches on same, must not exceed a speed of four (4) miles per hour.

Freight Sidings at Rensselaer.

All freight trains, except regular scheduled fast freights, north-bound, must use the long siding north-bound, at tower 97, and south-bound, at the north end of Rensselaer yard.

Fast freights, north-bound, when within twenty minutes or less of the time of passenger trains, must take siding at tower 97.

Light engines and caboose cars poling need not take these sidings except to clear the time of passenger trains.

South-bound freight trains will not take main track at tower 97 without first ascertaining that all south-bound first-class trains have passed.

SPECIAL INSTRUCTIONS.

MOHAWK DIVISION, BETWEEN ALBANY AND SYRACUSE.

Clocks designated as Standard Time Pieces are located at Albany passenger station; Troy passenger station; Yard Master's Office, West Albany; Engine House, West Albany; Schenectady passenger station; Utica; Syracuse passenger station; and Yard Master's office, De Witt. (See Rule 17.)

Main tracks will be used as follows:

No. 1 by east-bound passenger trains.

No. 2 by west-bound passenger trains.

No. 3 between Albany and West Albany, by east-bound freight trains; between West Albany and De Witt by west-bound freight trains.

No. 4 between De Witt and West Albany, by east-bound freight trains; between West Albany and Albany, by west-bound freight trains.

Trains 31, 35 and 32 do not carry passengers. Passengers will not be carried on freight trains.

Trains Nos. 50 and 51 will have right of track over all other trains.

Trains Nos. N. R. 1, N. B. 5 and N. S. 3 will run on track No. 2, but must keep out of the way of first-class trains.

☞ The West Shore Railroad trains destined over N. Y. C. & H. R. R. must come to a full stop before coming on or going off N. Y. C. tracks at Athens, Rotterdam and Schuyler Junctions. Semaphore Signals are interlocked with all switches of N. Y. C. tracks at these points, and they must be strictly observed.

Yard limit signs have been erected at Black Rock Cut, east of West Albany, and at the Old Road Curve, west of West Albany. The Block on track No. 4 ends at these signs. Trains occupying track No. 4 inside of Yard Limit, need not be protected by flagman.

Yard Limit sign has also been erected east of Retinaw Bridge, east of DeWitt. Block on track No. 3 ends at this sign. Trains occupying Track No. 3 inside of Yard Limit, need not be protected by flagman.

Water-station limits are designated by water-station signs, and on tracks 3 and 4 it will not be necessary to protect the rear end of any engine or train by flagman while taking water where these signs are located.

Train No. 28 will stop at Palmyra on signal for passengers to Albany and points beyond, and at Weedsport for passengers from L. V.
On Sundays Trains Nos. 70 and 76 will run from Buffalo to Rochester only.

SPECIAL INSTRUCTIONS.

WESTERN DIVISION.

Clocks designated as Standard Time Pieces are located as follows: Superintendent's office, Buffalo; passenger stations at Syracuse, Rochester, Batavia and Suspension Bridge; Yard Master's offices at DeWitt, East Rochester, East Buffalo and Suspension Bridge. (See Rule 17.)

Main tracks will be used as follows:

No. 1 by east-bound passenger trains.
No. 2 by west-bound passenger trains.
No. 3 by west-bound freight trains.
No. 4 by east-bound freight trains.

Trains Nos. 50 and 51 will have the right of track over all other trains.

Train No. 7 will stop at Newark for mail.

Trains Nos. 73 and 75 will stop at Wayneport for milk.

Trains Nos. 31, 35 and 32 do not carry passengers.

Passengers will not be carried on freight trains.

Trains N. R. 1, N. S. 3, and N. B. 5 will run on track No. 2, and will have right of track over freight trains, but must keep out of the way of first-class trains.

Trains B. N. 2, B. N. 4, B. N. 6, and B. N. 8 will run on track No. 1 and will have right of track over freight trains, but must keep out of the way of first-class trains.

All freight trains bound east, either on track 1 or 4, will consume not less than 20 minutes from pusher's cross-over switch east of Batavia to Byron.

All freight trains bound east on track 4 will use not less than 20 minutes from Byron to Bergen, and not less than 20 minutes from East Rochester to Fairport.

No Falls Road freight train going west will pass East Rochester without first receiving orders from Despatcher's office.

All trains of the N. Y. C. & H. R. and West Shore Railroads will approach junctions at Fairport, Chili, and William Street, Buffalo, under full control, and must be governed by the signals. West Shore trains east bound will give five (5) blasts of the whistle at William Street, Buffalo, to indicate them as West Shore trains. If trains of the same class on both roads arrive at either of the above junctions at the same time, the N. Y. C. & H. R. R. R. train will have the right of way.

All trains must approach the junctions at East Buffalo; Batavia; Ames Street, Rochester; Brighton; and Geddes Street, Syracuse, under full control, and must be governed by the signals.

Semaphore Signals have been erected to protect the crossings of the Erie R. R. at Batavia, the G. & L. Branch at Lyons, and the R. W. & O. R. R. at Salina. All trains approaching these crossings must reduce speed, and engine-men must have trains under full control and be governed by the signals.

Signal poles have been erected at the crossings of the Buffalo Creek R. R., just west of William Street, the Erie R. R. east of Louisiana street, and of the W. N. Y. & P. R. R. east of South Division street, in the city of Buffalo. When the target is in a horizontal position, trains of the N. Y. C. & H. R. R. R. have the right to cross. When it is in a diagonal position, nearly vertical, trains of the Buffalo Creek R. R., Erie R. R or W. N. Y. & P. R. R. have the right to cross. At night a Red Light will be suspended from each end of the target to indicate its position. When the crossings are not in use by either road, the signal will be set to indicate that trains of the N. Y. C. & H. R. R. R. have the right to cross, and will only be reversed against them when trains of the Buffalo Creek R. R., Erie R. R. or the W. N. Y. & P. R. R., have the right to cross. All trains approaching these crossings must reduce speed, and enginemen must have trains under full control and be governed by the signals. The Signal Tender will not give the signal to the trains of the Buffalo Creek R. R., Erie R. R. or of the W. N. Y. & P. R. R. until after they have come to a full stop.

A distant signal is located just east of Chicago Street, Buffalo, interlocked with the crossing signal governing the Lehigh Valley Railroad crossing at Scott Street. When distant signal arm is dropped, and clear signal or white light by night shown at tower, trains of the N. Y. C. & H. R. R. R. have the right to cross. When distant signal blade is extended, or green light shown and red arm at tower projects over the N. Y. C. & H. R. R. R. tracks, or red light by night, trains of the Lehigh Valley R. R. have the right to cross.

No excuse will be received for neglect to observe and be governed by the above signals in all respects as they indicate.

Water-station limits are designated by water-station signs, and on tracks 3 and 4 it will not be necessary to protect the rear end of any engine or train by flagman while taking water where these signs are located.
