CANADA Southern RAILWAY.
The Tourists' Favorite Route

VIA

NIAGARA FALLS and the St. LAWRENCE

W. P. TAYLOR, General Manager.
FRANK E. SNOW, Gen'l Pass. & Ticket Agt.
The Canada Southern Railway,

EXTENDING FROM

DETROIT AND TOLEDO

to

BUFFALO AND NIAGARA FALLS,

forms the

Quickest and most Attractive Route

between

THE WEST AND THE EAST.

This company

Has placed on sale at Detroit, Toledo, Columbus, Dayton, Cincinnati, Louisville, Nashville, Chattanooga, Atlanta, Indianapolis, St. Louis, Kansas City, Chicago, Grand Rapids, Saginaw, Bay City, St. Thomas, Buffalo, and other principal cities of the West and South, a full line of Summer Excursion Tickets, via the most attractive Routes, to all Resorts in the Eastern States.

The following Agents of the Canada Southern Railway Co. will cheerfully reply to any inquiries respecting Rates and Routes:

W. H. Hurlburt,
Gen'l West. Pass. Ag't,
CHICAGO, ILL.

M. C. Roach,
Western Pass. Ag't,
DETROIT, MICH.

Wm. Gates,
Ticket Ag't, Boody House,
TOLEDO, OHIO.

C. A. Warren,
Pass. & Ticket Ag't,

BUFFALO, N. Y.

H. M. Hunter,
Pass. & Ticket Agent,
St. Thomas, Ont.

W. P. Taylor,
General Manager,
BUFFALO, N. Y.

Frank E. Snow,
Gen'l Pass. & Ticket Ag't,
BUFFALO, N. Y.
DEVIL'S OVEN, THOUSAND ISLANDS.
The Canada Southern Railway.

A few Notes of Interest Along the Line.

COMMENCING our journey at Toledo, it is less than an hour's ride up the shore of Lake Erie, and past the beautiful town of Monroe, to the mouth of Detroit River, where crossing the American channel upon a fine bridge we reach the lovely

GROSSE ISLE.

This charming island is a favorite summer resort, and contains many costly and elegant residences built by prominent business men of Detroit, Toledo and Cincinnati. The place is so delightful that some of these lovers of pure air have become permanent residents, remaining in their beautiful cottages all the year round. The train from Detroit arrives here at the same time as the one from Toledo, and the two, including through cars from St. Louis and Chicago, are transferred entire upon immense Iron Ferry Steamers, to Amherstburg, and continue to Buffalo and Niagara Falls as one train.
AMHERSTBURG,

Formerly known as Malden, lies at the mouth of Detroit River, and is of some historic interest—the ruins of Fort Malden, and a well preserved and picturesque old Block House, on Bois Blanc Island, still remaining to remind us of the days of Tecumseh, and the eloquent appeals of the Indian Statesman, Logan, who spent his last days here.

The view at this point is very fine, and whoever goes east without seeing the beautiful islands and noble expanse of the Detroit, has to regret the loss of one of the finest river views in America.

From Amherstburg to St. Thomas, a distance of 111 miles, the road has but one curve, and was the scene of the famous run of Sept. 13th, 1877, of which the following account appeared in the Detroit Free Press:
The clergy and leading members of the various societies of Detroit were desirous of tendering to the returning Bishop a public reception. The time of the arrival of the regular trains from the East not being sufficiently early to permit of that object, Gen’l Passenger Agent Frank E. Snow, of the Canada Southern, tendered a special train to convey them to St. Thomas, there to meet Bishop Borgess, and escort him to Detroit on a train which should arrive in advance of the regular train.
The committee accepted this offer, and at noon of September 13th, 1877, they left Detroit, proceeded to St. Thomas, and awaited the arrival of the Bishop, for the purpose of transferring him to the special train in waiting to convey him to Detroit.

BLOCK HOUSE, DETROIT RIVER.

There was to be only one stop in the hundred and eleven miles that separate St. Thomas from Amherstburg. The engineer, Macomber, was surrounded by an admiring throng, which commented on the handsome appearance of his iron steed. He
attended to the oiling of the engine and the "doping" of the journals and boxes, and his whole demeanor affirmed his determination to make "the run through by the card." The steam gauge, just before starting, showed a pressure of eighty-five pounds. The air-brake cylinders clucked in an impatient manner and the light smoke ascended perpendicularly in the still air of the delightful September afternoon.

The fireman was pointed out by an acquaintance. "He's a stout young fellow," said he, "as you see, but there'll be nothing
but a grease spot left of him by the time the train reaches Am-herstburg; that is, if Macomber tries to beat Vanderbilt's time, for this train is one car heavier than Vanderbilt's."

"Oh, don't you talk," said another; "the run there and back on that engine won't warm him up. What's two hours of firing?"

This conversation, and these preparations, excited a number of the more timorous passengers. A half dozen of them made straight for the ticket-office and purchased accident insurance tickets.

General Manager Muir heard of it. "Why," said he, "that's preposterous. There is but one curve in our track between here and the Detroit River, and that's at Charing Cross, where we stop for water. The road-bed is in perfect condition, there are no bridges once we leave the town, and the rails are of the heaviest steel on any railroad in America. Our rolling stock is first-class. I'm going to Detroit in that train."

The Pacific Express came up; Conductor Crawford sang out "all aboard!" and the special pulled out from St. Thomas at 5.27 P. M. A grand hurrah from the platform signaled the departure.

Once the bridge was cleared Macomber "let her out." In the palace car the party sat down, and dinner was served upon a small
table. No one noticed any particular motion in the car. There was no disarrangement of the dishes, crowded and small as was the table. The hum of the train was somewhat sharper than usual, and the rushing air against the windows sounded like the sweeping of a rain-storm. Otherwise there was no indication of unusual speed to a person in the car.

Presently watches were taken out and observations made.

“A mile in sixty seconds!” ejaculated one.

Shortly after—“A mile in fifty-eight seconds!”

Again—“A mile in fifty-seven seconds!” and Fred. Moran, with a cheer, announced that his stop-watch marked but fifty-three seconds to the mile.

At the rear end of the last coach sat General Manager Muir, his eyes fixed on the ever-appearing, ever-vanishing track, with a demeanor philosophic, as if such speed was an every-day affair on the Canada Southern.

Before one could point out an object it had vanished. Before a question could be asked and answered a mile had sped.

The wires on the telegraph poles swung up and down from the movement of the train. The bushes on the side of the ditches shook as if swept by a hurricane. A thin line of smoke stretched interminably in the distance. The impetus of the train increased; the vehemence with which it rushed forward created a vacuum that apparently took nature some seconds to overcome, and the spirits of the passengers were exhilarated by the unprecedented speed at which they moved through space.

A side-tracked passenger train saluted with cheers and locomotive whistles. Neither was heard; before the sound could reach the ears of the passengers in the special it was beyond hearing. One could see the rushing steam and the waving handkerchiefs. Six miles between Highgate and Ridgeway were made in five minutes; the fifty-seven miles between St. Thomas and Charing Cross were made in fifty-six and a half minutes. A halt at Charing Cross of four minutes for water, and then on again with the same overpowering velocity. But go as fast as it might, the train could not overtake the sun; it sank and nightfall came on. Then could be seen the work of the fireman. Each time he opened the furnace a volume of sparks shot out, and the trailing fire came down upon the track like the pyrotechnics of an aerial mine.
Finally, a sharp twist that sent the standing passengers over to the right, and directly another that sent then in another direction, and the yard of Amherstburg station was reached.

Hurrah! One hundred and eleven miles in one hundred and nine minutes! The fastest time in America—beating by three minutes the remarkable run of Vanderbilt's special train."

The run from Amherstburg to Fort Erie, two hundred and twenty-nine miles was made on May 5, '81 with Mr. Cornelius Vanderbilt and party of New York Capitalists in two hundred and thirty-five minutes by the Celebrated Fontaine Locomotive, a cut of which appears on the opening page of this guide.

**ST. THOMAS.**

One of the most prosperous and beautiful cities of Canada, containing many fine residences and lovely drives. The general offices and machine shops of the company are located here. The Canada Southern Dining Hall, where all trains stop for meals, has no superior in the country.
OLD WINDMILL. FORT ERIE.

HAMilton,

A city of considerable importance, is reached via a branch line of twenty-six miles from Hagersville.

Burlington Beach is a favorite lakeside resort.
PLEASURE TOURS.

GRAND RIVER.

At Deans an iron bridge spans this beautiful river. Here the Chiefs of the several tribes of Chippewas, Oneidas, Senecas and Muncy Indians met in council each year, it being the home of the Chiefs of the several Nations.

WELLAND.

The great Welland Ship Canal which connects Lake Erie with Ontario, is crossed at this point, and a short ride brings the traveler to

BUFFALO,

Where Canada Southern trains connect with all trains of the N. Y. Central and N. Y., L. E. & W. R'ys. If the tourist wishes to
go East, by Niagara Falls, he continues his journey over the Niagara Falls Division, which runs down the bank of Niagara River, past the battle grounds of Chippewa and Lundy's Lane, to

NIAGARA FALLS.

A large platform has been erected on the brink of the chasm, just at the foot of the Rapids, and all trains stop ten minutes,
giving passengers time to experience that supreme sense of awe which characterizes the view from this point.

It is well known that many people visit Niagara, and, after being hustled about the hotels, and driven over the beaten paths of the hackmen, come away with a lingering sense of disappointment. The Falls did not impress them as they had expected; and, though recognizing the truth of all the glorious descriptions they have read and heard, they feel that there is something lacking, something in Niagara that was not exhibited to them—and they are right. They have not seen the crowning majesty of that great cataract, or felt the overwhelming, awe inspiring sensation excited by that first view from the bluff.

Horseshoe Falls, from the Clifton, are picturesque; American Falls, from Cave of the Winds, are awful; the Great Chasm is wonderful, and the Rapids terrible; but the vast expanse of Rapids and Islands and Falls and Gorge, as seen in one comprehensive view from the Canada Southern platform, is sublime and supreme. It is the incarnation of all that is grand, wonderful and awe inspiring in Niagara; and happy is he who gets his first impressions of the great cataract from that point, which has long been chosen by Poets and Painters as the best for artistic study. It might indeed be well named Inspiration Point.

The Canada Southern is positively the only line from the West that lands passengers directly at the Falls.

A Transfer Company has been organized for the protection of the traveling public. An agent will board each train, before reaching the Falls, and recheck baggage, and provide transfer tickets to any hotel on the Canada or American side, at rate of fifty cents for one passenger and usual amount of baggage. Continuing trip down the Mountain from Niagara Falls, a fine view of the battle field of Queenston Heights is had from the train. Brock’s monument, a stately column erected in honor of a British General of that name, stands upon the heights near the railway.

OLD NIAGARA,

The terminus of the Canada Southern R’y, is next reached; once the Capital of Upper Canada but now a favorite resort for citizens
of Toronto and Buffalo. The pleasures of fishing, boating, bathing, of good roads and pleasant drives attract many visitors during the summer months. The Queen’s Royal Hotel, delightfully situated near the beach, affords the very best accommodations for tourists. Here also may be seen the dismantled British Forts, Niagara and Moss. Opposite stands Fort Niagara, with the Stars and Stripes overhead.

From Old Niagara three elegant steamers run daily to Toronto, affording a pleasant trip, of two hours, across beautiful Lake Ontario.

**TORONTO**

Justly claims the proud title of “The Queen City of Canada,” and contains many beautiful and costly public buildings. The University, Trinity College, Normal School, Lorretto Convent, English and Catholic Cathedrals, the Lt. Governor’s residence, Parliament buildings, Art Gallery, etc. The city has also many lovely drives, among them the Queen’s Park.

**LAKES OF MUSKOKA.**

From Toronto, these lovely lakes are reached via the Northern R’y; they have long been known as a favorite summer resort.

**DOWN THE ST. LAWRENCE.**

During the summer months the Richelieu & Ontario Navigation Company dispatch every afternoon, at two o’clock, one of their elegant side wheel steamers from Toronto (Canada Southern Wharf) for the St. Lawrence trip. Those who desire to do so can take train from Toronto with sleepers attached to Kingston where connection is made next morning with steamer. The far-famed Thousand Islands appear in sight soon after leaving Kingston. No where in the world are more beautiful scenes presented than during the trip through these lovely islands. As the steamer glides through the intricate channels, each moment reveals new beauties, making the whole trip of the most enchanting interest.

Commencing June 20th, ’81, the St. Lawrence Steamboat Company will run a line of Steamers from Cape Vincent, N. Y.
to Montreal, leaving Cape Vincent 6.30 a.m., arriving at Montreal 5.30 p.m. same day, touching at Alexandria Bay and other intermediate points, and connecting at Montreal with all Railroad and Steamboat lines.

ALEXANDRIA BAY

Is the chief summer resort of the St. Lawrence. The numerous islands in the immediate neighborhood contain many fine residences, among others, "Bonniecastle," the summer home of Dr. J. G. Holland. Several fine hotels afford ample accommodations for tourists.

LONG SAULT RAPIDS,

About ten miles in length, are next reached. The current rushes through them at the rate of twenty miles an hour, and the descent is exciting in the extreme.
LACHINE RAPIDS,
The shortest but swiftest encountered in the St. Lawrence. Here the Indian Pilot, whose fame is known to all who make the leap down the perilous descent, has for many years safely guided boats down the Rapids, to the admiration and delight of all travelers. After passing the Rapids, and steaming under the great Victoria Bridge, costing $6,300,000,
MONTREAL,

The commercial metropolis of Canada, is reached. A sojourn of several days here will repay the traveler. Montreal contains many magnificent buildings—the new Post Office, Banks, Mechanics' Institute, new Court House, McGill College, Bonsecours Market, and the Cathedral of Notre Dame, the largest church edifice in North America. On St. Catherine street is situated the English Cathedral, the most perfect specimen of Gothic
architecture in the country. The Windsor and St. Lawrence Hall Hotels are well known to the traveling public. Montreal has many delightful drives; one to the top of Mount Royal gives a splendid view of the city and river. Longue Point should not be omitted, and a drive to Lachine, along the river bank, in full view of the rapids, returning via boat running the rapids, is a trip highly appreciated by visitors.
QUEBEC.

Magnificent steamers leave Montreal every evening, except Sunday, reaching Quebec early the following morning. The rail route is G. T. R'y, via Richmond, or Q., M., O. & O. R'y—each line running two daily trains.

No city on the continent so impresses the tourist, by startling peculiarities of site and the novelty of its general aspect, as this "Ancient Capital." Its antique buildings, lovely drives and historical scenes, make it one of the most attractive resorts on the
American continent. Among the many scenes that will interest the tourist, may be mentioned the ancient gates dividing the city; the cottage where Montcalm had his headquarters at the time of the celebrated battle with Wolfe; Durham Terrace, affording a view considered by many as second to none in America; Duf-

LACHINE RAPIDS.

ferin Terrace, named after Lord Dufferin, late Gov. General of Canada, and which forms one of the grandest promenades in the world; the Governor's Garden, containing the monument erected in memory of those two brave Commanders, Wolfe and Montcalm, who, though in life brought into deadly enmity, are united in
the memories of the future; the Grand Battery; the Esplanade; the English Cathedral; the Ursuline Convent, founded early in the seventeenth century, with its fine paintings; the University of Quebec; Laval University; French Cathedral, etc., are all open to visitors, and will be found of great interest.

Wolfe's Monument, on the plains of Abraham, where he fell; a trip to the Isle of Orleans; the lovely drive of several miles through the French villages to the Falls of Montmorenci, with its beautiful scenery, will well repay the traveler. The best hotels are the St. Louis and the Russell. The trip from Quebec down the St. Lawrence, and up the far-famed

SAGUENAY RIVER,

To Cacouna, Tadousac, Murray Bay, Cape Eternity and Ha Ha Bay, is considered one of the finest in America. Steamers for the Saguenay trip leave Quebec every morning, except Sunday, during the summer months.

LAKE CHAMPLAIN.

Leaving Montreal in the morning, a ride of two hours by rail brings the traveler to Plattsburg, where steamers are in waiting to make the trip down the lake to Ticonderoga, passing enroute many scenes of great historic interest. Those who desire can,
however, pursue their journey by the Delaware and Hudson Canal Co. R'y, to Baldwin, at the head of

LAKE GEORGE.

The American Tourist is familiar with the repeated and glowing descriptions of this beautiful lake, with its romantic islands and transparent waters; but neither the unrivaled scenery nor the ceaseless play of light and shade upon its rock-bound islets and
coasts, can for a moment equal the absorbing interest excited by the historic legends of this memorable region.

SARATOGA.

From Fort William Henry Hotel, Lake George, the trip over the mountains on the Tally Ho Stage, to Glen's Falls, is picturesque and exciting, and will be thoroughly enjoyed by all. The driver will point out many spots of historical interest. From Glen's Falls D. & H. C. Co.'s trains run direct to Saratoga.

DOWN THE HUDSON.

During the summer months a special train leaves Saratoga every morning, connecting with Day Line Steamers at Albany, making the famous and delightful trip "Down the Hudson, to New York, by Day Light."

CONCEY ISLAND,

The most popular sea-side resort in the United States, is but ten miles from New York, and easily reached by any one of fifteen or twenty routes in forty-five minutes. It is not uncommon to see 150,000 people on the island at one time; and some sixty hotels and five thousand bath houses are required for their accommodation.
The remarkable gradation of fashion and differences of social usage exhibited in the four miles of Coney Island hotels and beach are never failing sources of amusement and interest to every observer of human nature. From the refined elegance and luxurious fashion of the Oriental and Manhattan, it is but two or three hours walk through the popular and intermediate phases of Brighton and West Brighton, to the free-and-easy frolic of Norton's at the lower end of the Island.

CAPE MAY AND LONG BRANCH.

Through tickets, via St. Lawrence, Lake George and White Mountains, to these charming summer coast resorts. See list of forms.

THROUGH THE WHITE MOUNTAINS.

The Canada Southern Tickets, via the St. Lawrence, Montreal and Quebec, consist of numerous forms, and read via all lines to Boston, Portland and New York, with side trips to all places of interest in the Mountains, including trips up Mt. Washington to Tip Top House, Profile House, Bethlehem, Franconia, Twin Mountain House, Crawford House, Glen House and through the Notch; from Newport, a trip up Lake Memphremagog; from Weirs, a delightful trip on Lake Winnepiseogee to Centre Harbor, and Wolfeboro; and other short trips to resorts of pleasure throughout the White Mountain district, extending on to Old Orchard Beach, Mt. Desert, Nantucket, Rye Beach, Newport, Narragansett Pier, Martha's Vineyard, etc.
SPECIAL NOTICE

FOR THE INFORMATION OF TICKET AGENTS AND TOURISTS.

Tickets between Toronto and Montreal, reading via Richelieu and Ontario Navigation Co.'s Steamers are not good via Rail.

Forms reading via Rail from Toronto are valid on Steamers from Kingston to Montreal. Parties desiring can take Pullman Sleeper at Toronto, which is run directly to Kingston wharf (allowing full night's rest) where boat may be taken at 6.00 A.M.

Tickets on Steamers include meals (berths extra) between Toronto and Montreal. Between Montreal, Quebec and Saguenay River points, meals and berths extra.

Tickets on Lake Champlain and Lake George Steamers, meals extra.

Tickets on Hudson River and Sound Steamers, meals and berths extra.

Tickets from Plattsburg to Fort Ticonderoga are valid either via Rail or Boat.

Tickets reading over Mt. Washington R'y, are valid only from 1st of June to 1st of October.

The Hudson River, Lake Champlain and Lake George Steamers commence their trips about the 1st of June, and after October 1st trips are irregular.

SPECIAL TICKETS ARRANGED.

The Canada Southern Railway Company, in addition to the large variety of Summer Excursion Tickets, will arrange Special Tickets to any resort in the East not noted in this book. Agents of this Company will cheerfully reply to all applications, and give rates and all information required, and will also accompany parties of ten or more to look after their comfort and arrange all details for a pleasure trip.
RESERVED STATE-ROOMS.

The Canada Southern Company has arranged with the Richelieu and Ontario Navigation Co. to reserve state-rooms on St. Lawrence Steamers, from Toronto, on application from our Agents. Parties desiring such accommodation should apply by letter to Canada Southern Agent, or call on Ticket Agent of connecting lines as per list attached. This arrangement will be found of great use, as state-rooms may be secured several days in advance.

Remember no other line offers this inducement.
