

E.H.M.

**The New York Central
AND
Hudson River Railroad**

MAIN LINE.

Time Table No. 77

FOR EMPLOYEES ONLY.

Taking effect

AT 12.01 A. M.

Sunday, June 14, 1903.

STUDY the SPECIAL INSTRUCTIONS and NOTE ALL CHANGES.

The Passenger Trains of this Company will STOP ONLY to receive and discharge passengers at such stations as are designated herein.

D. B. McCOY,
Supt. Hudson Division.

F. A. HARRINGTON,
Supt. Mohawk Division.

A. H. SMITH,
General Superintendent.

F. W. EVERETT,
Supt. Western Division.

J. P. BRADFIELD,
Asst. Gen'l Supt.

C. F. SMITH,
Supt. Pass. Transportation.

Explanation of Letters and Signs:

- A—Regular stop.
- Arrive.
- Leave.
- f—Stop on signal to receive or discharge passengers.
- g—Stop to land New-York passengers only.

- X—Stop on Saturday only.
- 9—Stop on Sunday only.
- M—Stop on Monday only.
- *—Meet or pass trains at reduced speed.
- †—Trains will pass at Lacy's Middle.
- ‡—Trains will pass at Hallenbeck's switch.

- †—Trains will pass at Poughkeepsie Middle.
- ††—Trains will pass at Stuyvesant Middle.
- ‡—Trains will pass at Cold Spring Middle.
- Letter prefixed to time of train refers to note of corresponding letter at the bottom of table.

SPECIAL INSTRUCTIONS. HUDSON DIVISION.

Standard Clocks are located at:

Grand Central Station; Despatcher's office 72d St.; Engine House 72d St.; Rensselaer Engine House; Passenger Stations at Croton, Poughkeepsie, Albany and Troy; and Yard Master's office at West Albany. (See Rule 3.)

Between Grand Central Station and Spuyten Duyvil trains will use the left-hand track. Between 30th St., N. Y., and Spuyten Duyvil, and between Spuyten Duyvil, Albany and Troy trains will use the right-hand track.

Bulletin Boards are located at Yard Despatcher's offices, 72d St.; West Albany and Melrose Yards; Engine Houses at 47th St., 72d St., Mott Haven, Poughkeepsie, Rensselaer and West Albany; Passenger Stations at 30th St.; Grand Central (Conductor's Room); Croton; Peekskill; Poughkeepsie; Rensselaer and Albany (Station Master's Office).

Yard Masters are authorized to start extra freight trains from terminals; such trains will display the required signals.

This rule will also apply to engines running light over the road when the Engine Despatcher has received permission from the Superintendent to run such engine.

Work trains are authorized to work as extra within specified limits. Before starting the conductor will wire the Superintendent each morning between what points on the Division they will work that day, and must not go outside of such limits without receiving

Yard limits are located as follows:— Rensselaer; between the west bound home signal at block station 99 and the west end of the passenger bridge at Albany.— Poughkeepsie; between block stations 58 and 60.— 130th St.; between 128th St. and 152nd St.— 60th St. extends west to 86th St. tower.

All trains while running within the limits of the Rensselaer yard, and all extra trains while running within the limits of the yards at Poughkeepsie, 130th St. and 60th St. must have their trains under control, so that they may be stopped within the range of the vision of the enginemen.

Enginemen must approach the junctions of the Spuyten Duyvil and Port Morris Branch at Spuyten Duyvil and Mott Haven Junction, and the Boston & Albany R. R. crossing at Hudson, with train under full control. They must run cautiously around the curves between Kings Bridge and Spuyten Duyvil, and run with care through all villages.

Conductors and enginemen are required to have a copy of the local time-table of the Troy and Greenbush Branch and Harlem Line while on duty on those divisions, and be governed by their instructions.

Between New York and Albany the rules for calling in of flagmen by steam whistle signals (Rule 14) will not apply. In every instance flagman will remain out until picked up by following train.

Rule Governing Detached Trains (on Hudson Division).

Whenever a freight train becomes separated on any part of the road, great care is required to prevent detached parts from colliding; the forward part must be kept in motion until rear part is known to be stopped. Should it part without the immediate knowledge of engineman, he must not back up for it (unless it is in sight), but must proceed to the first siding or middle track, leave the forward part of train and immediately return on the opposite track to find the rear portion. Should a following train of any class find a detached portion of a freight train between stations, they must couple on and push it cautiously to the first siding or middle track, at a speed not exceeding six (6) miles per hour, but must first send a man with danger signals at least five hundred (500) yards in advance, which distance must be maintained until the siding is reached, and also place a man

Book of instructions issued Nov. 1st, 1902, governing the use of block signals; all concerned should have a copy.

Trains Nos. 50 and 51 are superior to all other trains. Trains Nos. 25 and 26 are superior to all other trains excepting trains Nos. 50 and 51.

Trains Nos. 27, 31, 32, 34, 38, 39, 43, 48 & 49 do not carry passengers. Passengers will not be carried on freight trains.

Trains Nos. 103, 147, 150 and 120 will stop at University Heights. Trains Nos. 91, 56 and 78 will stop at North Germantown.

Trains Nos. 45 and 69 will not run from Rensselaer to Troy on Sunday.

Milk Trains Nos. 38, 39, 48 and 49 will stop as indicated by special order.

Through Express Trains scheduled to stop at 125th Street and 138th Street stop only to discharge passengers from the West and to receive passengers for the West.

permission from Superintendent, and will report when through work for the day and clear of main track.

Form of report to be sent by conductor.

Work extra, will work to-day between and
(Signed)
Conductor.
Engineman.

Employees of Hudson River Bridge Department will be governed by Rules and Regulations of N. Y. C. & H. R. R. Co.

Freight trains will be run ahead of first-class trains from one middle track or siding to another, by means of block signal indications instead of train orders.

When in accordance with the schedule a freight train should take a middle track or siding for a first class train, the engineman shall blow four (4) short blasts of the whistle while passing the block station preceding the one at which switches are located; if given the clear main track signals at such block station, the train may proceed, the engineman calling for switch at each succeeding block station preceding the one where siding or middle track is located until given switch to clear for the overdue first class train.

The proper clear signal given to a train at a block station, is authority to proceed on main track ahead of trains about due or overdue.

Before accepting such signals, conductor and engineman must know that their train is in condition to make good time, and they must not do work of any kind on the main track ahead of trains about due or overdue without permission from the Train Despatcher.

If trains are not able to make good time, or are to stop for any purpose, engineman will signal for switches in accordance with block signal rules.

on top of the first car with signals in view of the engineman, that may be plainly seen and promptly acted upon in case of necessity. Should the train pushing the rear portion of a detached train find that the forward part is not on the siding or middle track at point where the rear portion is placed, they must continue to run cautiously until the forward portion is found and passed, in order to avoid any possibility of collision with other detached parts.

Enginemen having occasion to go back after detached part of train and finding it being pushed, will cross over to the proper track and follow cautiously behind the shoving train. (See Rule 102.)

Trains have no right to back over the road except in emergencies, and must then be protected with signals sufficiently in advance to stop following train.

Middle Tracks or Sidings.

All trains using middle sidings in either direction must not exceed a speed of six (6) miles per hour, and will only proceed as they see the way to be clear.

All trains or engines going on or off middle tracks, or sidings, must not exceed a speed of four (4) miles per hour.

Middle Track Between Ossining and Spuyten Duyvil.

Middle or third track between Ossining and Spuyten Duyvil will be used by all freight, work, and construction trains, as follows:

The section between block station 27 and crossover at block station 24 will be used by east bound trains exclusively. Between block station 24 and crossover at block station 23, middle track will be used as a siding. Between block station 23 and crossover at block station 20, middle track will be used by west bound trains exclusively. Between crossover at block station 20 and block station 19, middle track will be used as a siding. Between block station 19 and crossover at block station 15, middle track will be used by east bound trains exclusively. Between block station 15 and crossover at block station 13, middle track will be used as a siding. Between block station 13 and crossover at block station 8, middle track will be used by west bound trains exclusively.

Stock trains and special fast freights will be allowed to run on main track between Spuyten Duyvil and Ossining, when possible

for them to do so without delaying or getting on the time of first-class trains.

Local trains will also have the right to use this middle track as above, subject to the same rules governing freight trains, when necessary to let express or superior trains pass them. Local trains availing themselves of this right must reduce their speed to that of freight trains and run with care.

On middle track between block stations 24 and 23, and between block stations 20 and 19, and between block stations 15 and 13, the rate of speed must not under any circumstances exceed six (6) miles per hour, and trains will only proceed as they see the way to be clear. On other portions of middle track between block station 27 and block station 8, trains may run at the rate of fifteen (15) miles per hour, but all trains or engines going on or off middle tracks, or approaching switches on same, must not exceed a speed of four (4) miles per hour.

Freight Sidings at Rensselaer.

All freight trains, except regular fast freights, must use the long siding west-bound, at block station 97, and east-bound, at the west end of Rensselaer yard.

Fast freights, west-bound, when within twenty minutes or less of the time of passenger trains, must take siding at block station 97.

Light engines and caboose cars poling need not take these sidings except to clear the time of passenger trains.

East-bound freight trains will not take main track at block station 97 without first ascertaining that all east-bound first-class trains due have passed.

D. B. MCCOY,
Superintendent.

SPECIAL INSTRUCTIONS.

MOHAWK DIVISION.

Standard Clocks are located in the Train Despatchers' Office and the Station Masters' Office at Albany, in the Telegraph Office at Troy, in the Yard Masters' Office and Engine House at West Albany, in the Waiting Room at Schenectady, in the Station Master's Office at Utica, and in the Yard Master's Office at De Witt. (See Rule 3.)

Main tracks will be used as follows:

No. 1 by east-bound passenger trains.

No. 2 by west-bound passenger trains.

No. 3, between Albany and West Albany, by east-bound freight trains; between West Albany and De Witt, by west-bound freight trains.

No. 4, between De Witt and West Albany, by east-bound freight trains; between West Albany and Albany, by west-bound freight trains.

Trains Nos. 27, 38 and 39 will not carry passengers. Train No. 34 will not carry passengers between Utica and Albany. Passengers will not be carried on freight trains.

Milk Trains Nos. 38 and 39 will stop as indicated by special order.

Train registers are located at Albany, West Albany, Utica, De Witt and Syracuse.

Trains Nos. 50 and 51 are superior to all other trains.

Trains Nos. 25 and 26 are superior to all other trains excepting trains Nos. 50 and 51.

Between Albany and DeWitt the rules for calling in of flagmen by steam whistle signals (Rule 14) will not apply. In every instance flagman will remain out until picked up by following train.

Bulletin Boards for Special Instructions are provided at Albany Passenger Station; General Yard Master's Office, West Albany; Engine House, West Albany; Engine House, Rensselaer; Schenectady Passenger Station; Yard Master's Office, Utica; Utica Passenger Station; Yard Master's Office, De Witt; and Engine House, De Witt.

Conductors and Enginemen must examine bulletin boards before starting on each trip.

Tracks 3 and 4 between Albany and DeWitt, also the double track between Hoffmans and Central Junction, may be used by extra trains without procuring special orders, but no trains except those shown on time-table may use tracks 1 and 2 between Albany and De Witt without orders from the Superintendent.

West Shore Railroad trains destined over N. Y. C. & H. R. R. tracks at Hoffmans, Schuyler Junction and Kirkville will be governed by the block signals which are interlocked with the switches of N. Y. C. tracks at those points.

Yard limit signs have been erected at Black Rock Cut, east of West Albany, and at the Old Road Curve, west of West Albany. The block on track No. 4 ends at these signs. Trains or yard engines occupying track No. 4, inside of Yard Limit, need not be protected by flagman.

Yard Limit sign has also been erected east of Refinaw Bridge, east of De Witt. Block on track No. 3 ends at this sign. Trains or yard engines occupying Track No. 3, inside of Yard Limit, need not be protected by flagman.

Water-station limits are designated by water-station signs, and on tracks 3 and 4 it will not be necessary to protect the rear end of any train by flagman while taking water where these signs are located.

F. A. HARRINGTON,
Superintendent.

SPECIAL INSTRUCTIONS.

WESTERN DIVISION.

Standard Clocks are located in the Telegraph office, Buffalo; Yard Master's office, East Buffalo; Telegraph office, Batavia and Rochester; Yard Master's office, East Rochester; Telegraph office, Lyons and Syracuse; and Yard Master's office, DeWitt. (See Rule 3.)

Bulletin Boards are located at Buffalo, East Buffalo, Batavia, Rochester, East Rochester, Lyons, Syracuse, and DeWitt.

Train Registers are located at Buffalo, East Buffalo, Syracuse, and DeWitt.

Main tracks will be used as follows:

No. 1 by east-bound passenger trains.

No. 2 by west-bound passenger trains.

No. 3 between DeWitt and Harlem Avenue by west-bound freight trains.

No. 4 between Harlem Avenue and DeWitt by east-bound freight trains.

Trains Nos. 50 and 51 are superior to all other trains.

Trains Nos. 25 and 26 are superior to all other trains, excepting trains Nos. 50 and 51.

Trains Nos. 67, 70, 72, 73, 75, 83 and 84 will stop at Wayneport for milk.

Trains Nos. 62, 66, 69 and 76 will stop at Brown Street, Rochester.

Train No. 27 will not carry passengers.

Trains Nos. 62, 66, 69, 70 and 73 will stop on signal at Greenlawn Cemetery.

Passengers will not be carried on freight trains.

Between DeWitt and Buffalo the rules for calling in of flagmen by steam whistle signals (Rule 14) will not apply on tracks Nos. 1 and 2. In every instance flagman will remain out until picked up by following train.

East-bound freight trains on tracks Nos. 1 or 4 will use not less than twenty (20) minutes from pusher's cross-over switch, east of Batavia, to Byron.

East-bound freight trains on track No. 4 will use not less than twenty (20) minutes from Byron to Bergen, or from East Rochester to Fairport.

Falls Road freight trains, west-bound, must not leave East Rochester without orders from the Superintendent.

All trains must approach junctions at Buffalo; William Street; East Buffalo; Batavia; Chili Junction; P. R. R., B. R. & P. and Ames Street, Rochester; Brighton; Fairport; Lyons; Syracuse Junction and Geddes Street, Syracuse; prepared to stop and be governed by the signals.

The Auburn Road connection with the main line will be at Tower No. 2, Syracuse Junction, instead of at Tower No. 1, Syracuse. Auburn Road first class trains will use tracks Nos. 1 and 2 between Syracuse Junction and Syracuse. Auburn Road second class trains will use tracks Nos. 3 and 4 (Lake Line) between Syracuse Junction and DeWitt.

Interlocking semaphore signals govern at the grade crossing with the Erie R. R., east of Louisiana Street, Buffalo; the Buffalo Creek, at William Street; the Erie R. R., at Batavia; the Pennsylvania Division (G. & L.) at Lyons; and the R. W. & O. at Salina (Lake

Line). All trains must approach these crossings prepared to stop and be governed by the signals.

Interlocking semaphore signals govern at the switches at each end of Exchange Street Station; at the Ohio Street yard connection, west of Louisiana Street; at the L. S. & M. S. R'y connection, east of Louisiana Street; and the L. S. & M. S. R'y connection, east of Seneca Street, Buffalo; and at the Belt Line connection at William Street. All trains must approach these points prepared to stop and be governed by the signals.

At the crossing of the Pennsylvania R. R. at South Division Street, Buffalo, the target on the signal pole on the north side of the tracks, at the west end of the South Division Street bridge, will govern movements of trains on tracks Nos. 1 and 2; when the target is in a horizontal position trains on N. Y. C. & H. R. R. R. tracks Nos. 1 and 2 will have the right to cross, and when it is in a diagonal position trains on the P. R. R. will have the right to cross. The target on the signal pole located west of the crossing, between track No. 4 and P. R. R. yard track, will govern movements of trains on track No. 3; when the target is in a horizontal position trains on N. Y. C. & H. R. R. R. track No. 3 will have the right to cross, and when it is in a diagonal position trains on the P. R. R. will have the right to cross.

At night a red light is suspended from each end of the target to indicate its position.

A distant signal is located just east of Chicago Street, Buffalo, interlocked with the crossing signal governing the Lehigh Valley Railroad crossing at Scott Street. When distant signal arm is dropped, and clear signal or white light by night shown at tower, trains of the N. Y. C. & H. R. R. R. have the right to cross. When distant signal blade is extended, or green light shown and red arm at tower projects over the N. Y. C. & H. R. R. R. tracks, or red light by night, trains of the Lehigh Valley R. R. have the right to cross.

Tracks Nos. 3 and 4 between DeWitt and Harlem Avenue may be used by extra trains without train orders, but no trains except those shown on time table will use tracks Nos. 1 and 2 between DeWitt and Buffalo, excepting within yard limits, without orders from the Superintendent.

Yard limits for tracks Nos. 1 and 2 will extend from Exchange Street Station, Buffalo, to Tower No. 47 at East Buffalo, from P. R. R. connection, west of Tower No. 31, Rochester, to Brighton, and from Tower No. 2 at Syracuse Junction to DeWitt.

Trains on tracks Nos. 1 or 2 must always be protected as per rule. Water-station limits are designated by water-station signs, and on tracks Nos. 3 and 4 it will not be necessary to protect the rear end of any train by flagman while taking water where these signs are located.

"Yard limit" signs are located on track No. 4, one mile west of the west end of DeWitt Yard; on track No. 3 one mile east, and on track No. 4 one mile west of Northern Crossing, Syracuse Junction, Lyons and Batavia. Trains within these limits must be under such control that they may be stopped within the range of vision of the engine-men.

Employes must not unlock main track switch, or stand within twenty (20) feet of such switch on the approach of, or during the passing of any train.

F. W. EVERETT,
Superintendent.
